TECHNICAL SKILLS

Languages: C++, JavaScript, Python, HTML5, CSS3, SQL

Web Frameworks & Databases: React.js, Node.js, Firebase Realtime Database, WordPress, SQLite

Tools & Systems: Git, GitHub, Render, Netlify, Power BI, VS Code

WORK EXPERIENCE

National Informatics Centre (NIC)

Jun 2026 – Aug 2026

Public Policy & Governance Technology Intern

- Allotted under the District Information Office (NIC), Patiala, Punjab for technological policy implementations.
- Analyzed administrative database registers to assist government officials in validating local program deployments.
- Aided in digitizing public verification queues, streamlining operational efficiencies across administrative offices.

Unified Mentor Pvt Ltd

Apr 2025 – May 2025

Fullstack Web Development Intern

- Completed an intensive 1-month program designing responsive backend structures and frontend components.
- Integrated custom REST API pathways, optimizing script calls to increase overall website loading speed by 15%.
- Collaborated on cross-browser debugging checks to resolve layout inconsistencies on tablet and mobile interfaces.

HACKATHONS & CYBER SECURITY

BOSS OS National Level Bug Bounty (C-DAC)

36 Hours Event

Vulnerability Security Analyst

- Participated in the national-level security bug bounty organized for BOSS OS (Bharat Operating System Solutions).
- Analyzed operating system dependencies and components for vulnerabilities and potential exploits.
- Reported vulnerability documentation directly to C-DAC engineers to improve open-source security patches.

PROJECTS

Sonia Boutique — Fullstack Booking Portal

Render & Firebase

- Designed a raw, zero-dependency Node.js HTTP server backend resolving API endpoints and serving static files.
- Integrated Firebase Realtime Database REST API to achieve persistent serverless storage without disk fees.
- Created a responsive calendar date scheduler, custom time-slot UI, and responsive measurement inputs in vanilla frontend.
- Built a password-protected staff admin panel enabling real-time booking confirmation and catalog CRUD operations.

NewsWorld Website

HTML, CSS, JS

- Developed a responsive real-time news aggregator that displays articles using dynamic API pagination.
- Integrated NewsAPI using fetch streams, incorporating search queries and topic filtering tabs.

EDUCATION

Thapar Institute of Engineering and Technology

Aug 2025 – May 2028

Bachelor of Engineering (B.E.) in Computer Engineering

Thapar Polytechnic College

Jul 2022 – May 2025

Diploma in Computer Science & Engineering (Percentage: 75.17%)

Guru Nanak Foundation Public School

May 2021 – Mar 2022

10th Grade, CBSE (Percentage: 80.00%)
